

## QuickSeam Batten Cover Strip

### 1. Description

The Firestone QuickSeam Batten Cover strip is a 152 mm wide (6") semi-cured EPDM strip laminated to a QuickSeam tape. The strip is designed to cover and seal Batten Strips as specified in the Firestone mechanically attached system.

### 2. Preparation

The RubberGard EPDM surfaces and attachment components within the seaming area must be prepared with QuickPrime Plus, using a QuickScrubber or QuickScrubber Plus tool. Use of other products is not allowed. Restore the product to room temperature prior to use if exposed to temperatures below 15°C for prolonged periods.

### 3. Application

Only apply the strip in one dimension, i.e. do not work the product from horizontal to vertical. Refer to the Firestone Specifications for specific installation instructions.

### 4. Coverage

In accordance with length of Batten Strip to be covered. Provide an overlap of 75 mm minimum at the end of the bar. Adjoining QuickSeam Batten Cover strips require an overlap of 25 mm and a cover patch.

### 5. Characteristics

Technical	EPDM Flashing	QuickSeam Tape
■ Base	EPDM	Rubber polymer
■ Colour	Black	Black
■ Solvents	None	None
■ Solids (%)	100	100
■ State	Semi-cured	Cured
■ Thickness (mm)	1.02	0.88
■ Width (mm)	152	156

### 6. Packaging / Storage / Shelf Life

**Packaging:** 30.5 m (100') rolls, 2 rolls per carton.

*Note: QuickScrubber and/or QuickScrubber Plus pads and handles are included in each carton. Quantities vary depending on the QuickSeam product.*

**Storage:** Store in original unopened containers at temperatures between 15°C and 25°C. Keep the material out of direct sunlight until ready for application.

**Shelf Life:**

12 months can be expected if stored in above-mentioned conditions. Shelf life information is only a recommendation and not a fact of life. The real expiration date highly depends on the history of storage and handling of the accessories. Quality and applicability should thus always be verified: QuickSeam Batten Cover Strip can be used only as long as the release paper can easily be removed from the tape without tearing the paper apart.

### 7. Precautions

Refer to Material Safety Data Sheets.
